

CONFIDENTIAL

30 April 1981

MEMORANDUM FOR: Executive Committee
FROM: Charles A. Briggs
Inspector General
SUBJECT: IG Report on Recruiting

1. The attached is sent to you in accord with the DDCI charge to me at the 29 April 1981 EXCOM meeting.

2. The complete IG report is 179 pages, with additional backup. I tried limiting the attached to the Executive Summary and consolidated Recommendations, but concluded that I should also extract Chapters II, III and IX:

- Chapter II - The Agency Recruitment System, although changed somewhat since the report was written, is still basically current and is the only "macro-system" description extant;
- Chapter III - The Recruitment Climate is still the best account of the salary squeeze, which is now worse;
- Chapter IX - The PATB. This complex subject cannot be, and was not, described in the Summary in sufficient detail for discussion at the next EXCOM meeting.
